

## **STEM Focused, Make a Difference**

The Teach for Utah program is a pipeline for supplying highly-qualified STEM 6-12 grade teachers throughout the state. Utah, a state with a growing elementary-age population, large class sizes and many rural communities, has a growing need for educators in STEM. Teach for Utah partners with the [College of Science](#) in **mathematics, chemistry, biology, and physics**, in addition to licensure coursework and a master's degree in Educational Psychology through the College of Education. Near the end of the program, students will complete an internship or student teaching experience in a Utah school district.

With the generous support of the Emma Eccles Jones Foundation, the University of Utah's [College of Education](#) has begun recruiting top talent from Utah high schools in order to prepare them as master's-level STEM teachers, and ensure those teachers build their early careers in Utah schools.

Applicants to the Teach for Utah program recognize that Utah's successful entry into the workforce is built on quality high school education. And Teach for Utah graduates are prepared to teach science, technology, engineering and math (STEM) fields—ensuring Utah's future workforce is ready for the challenges of today, tomorrow, and beyond. Apply today.
